ESETT DATA ENTRY
Common questions/tips
Treatment Effect CRF

• 60 minute assessment FAQ:
  
  • The 60 minute assessment should reflect a clinical determination of the patient’s condition at exactly 60 minutes regardless of when the assessment was performed.

  • For example, if the assessment was done at 70 minutes, the time of the assessment entered in WebDCU should reflect 70 minutes, but clinical judgment should be used to determine what was happening at 60 minutes based on all available information.
**Secondary Outcomes CRF**

- When any data point = Yes on the secondary outcomes CRF, a corresponding AE form should be submitted.

<table>
<thead>
<tr>
<th>Secondary Outcomes CRF</th>
<th>AE CRF</th>
</tr>
</thead>
<tbody>
<tr>
<td>Q01 Life-threatening hypotension within 60 minutes</td>
<td>Q30 = Life-threatening hypotension</td>
</tr>
<tr>
<td>Q02 Life-threatening cardiac arrhythmia within 60 minutes</td>
<td>Q30 = Life-threatening cardiac arrhythmia</td>
</tr>
<tr>
<td>Q03 Endotracheal intubation performed or attempted within 60 minutes</td>
<td>Q34 = Yes</td>
</tr>
<tr>
<td>Q04 Acute seizure recurrence between 60 minutes and 12 hours</td>
<td>Q30 = Acute seizure recurrence</td>
</tr>
<tr>
<td>Q05 Acute anaphylaxis within 6 hours</td>
<td>Q30 = Acute anaphylaxis</td>
</tr>
</tbody>
</table>
Baseline Vital Signs CRF

• Baseline vital signs are the vital signs collected closest and prior to the start of study drug infusion.

• If some vitals were collected before study drug infusion and others were collected after, enter ONLY the ones collected before study drug infusion into WebDCU.

• The vitals not collected before study drug infusion can be left blank on the CRF and warnings dismissed. Provide context in general comments as necessary.
Eligibility CRF

• Information may become available later that indicates the subject did not meet eligibility criteria at the time of enrollment. In this case, Eligibility CRF answers should be updated. This allows us to track eligibility deviations for analysis.

• The exception to this is for eligibility criteria that specify “known” in the question (e.g. “known liver disease”). These eligibility questions refer to what is known at the time of enrollment and they do not need to be updated later if more information becomes available.
## Demographics CRF

- Years of education should be left missing if unknown, instead of entering ‘0’.
- If known to be zero, either respond to the warning or explain in general comments.

<table>
<thead>
<tr>
<th>Q01</th>
<th>Ethnicity</th>
</tr>
</thead>
</table>
|      | Hispanic or Latino
|      | Not Hispanic or Latino
|      | Unknown

<table>
<thead>
<tr>
<th>Q02</th>
<th>Race</th>
</tr>
</thead>
</table>
|      | American Indian or Alaska Native
|      | Asian
|      | Black or African American
|      | Native Hawaiian or Other Pacific Islander
|      | White
|      | Unknown

<table>
<thead>
<tr>
<th>Q03</th>
<th>Number of years of education</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>If unknown, leave blank.</td>
</tr>
<tr>
<td></td>
<td>0</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Q04</th>
<th>Age at baseline</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>Derived from DOB on F101 Eligibility Form</td>
</tr>
<tr>
<td></td>
<td>15</td>
</tr>
</tbody>
</table>

*Based on the age, the subject should have some number of years of education. Leave blank if unknown, instead of putting 0.*
WEBDCU DEMO
Monitor Visit PI Review

• Principal Investigators can review monitoring visit reports in WebDCU and indicate in the system that they have reviewed.
