

ESETT – Opt-Out Bracelet Form

A seizure can happen to anyone at anytime. If you do not wish to be enrolled into the ESETT study you can wear an “**ESETT Declined**” bracelet at all times during the study enrollment period (approximately 5 years beginning August 2015). If you are wearing this bracelet when you arrive at a participating hospital, the researchers will know not to enroll you in this study. If you would like to wear a bracelet, please contact us or complete this form and mail it to us. You must provide your name and mailing address.
